

WheresTheBus Parent App

The WheresTheBus Parent App lets households know precisely when their child's bus will arrive at their bus stop.

Updated every 15 seconds, WheresTheBus displays the real-time minutes and miles the bus is from the household's bus stop.

Any member of the bus-riding household can access this information from any Internet connected device.

The WheresTheBus App is available to download for:

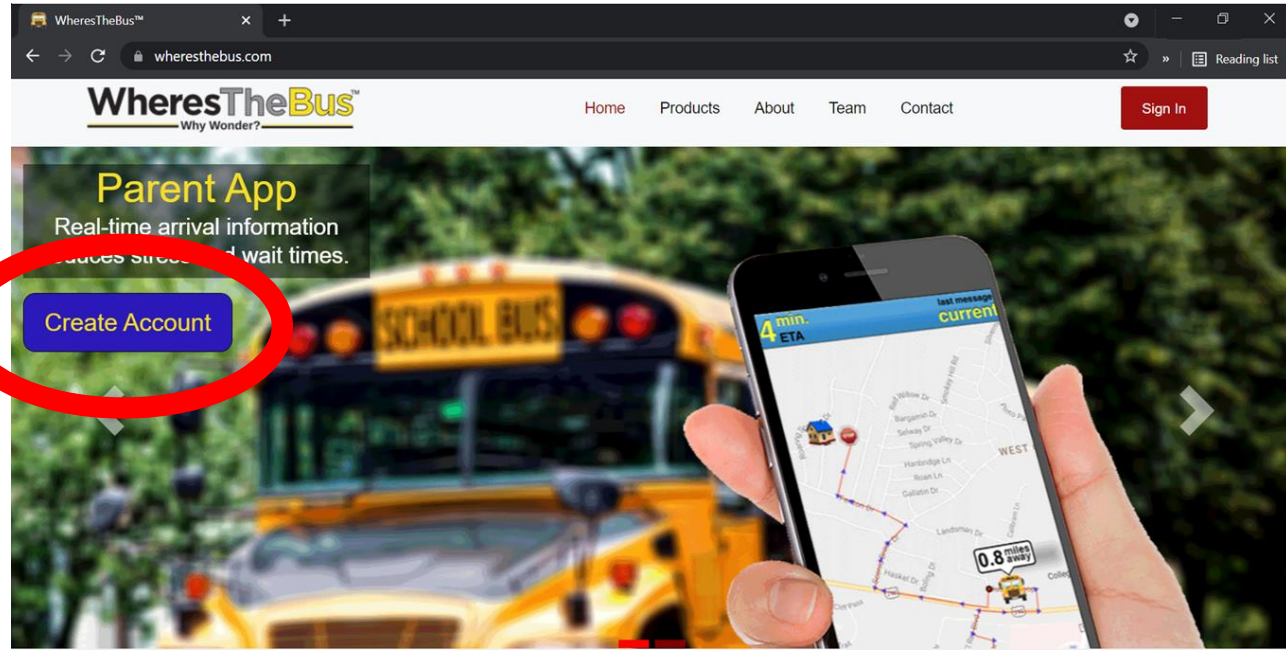

- iOS (App Store)
- Android (Google Play Store)

Also accessible via web browser for any Internet connected device.

TheBus™**
Why Wonder?

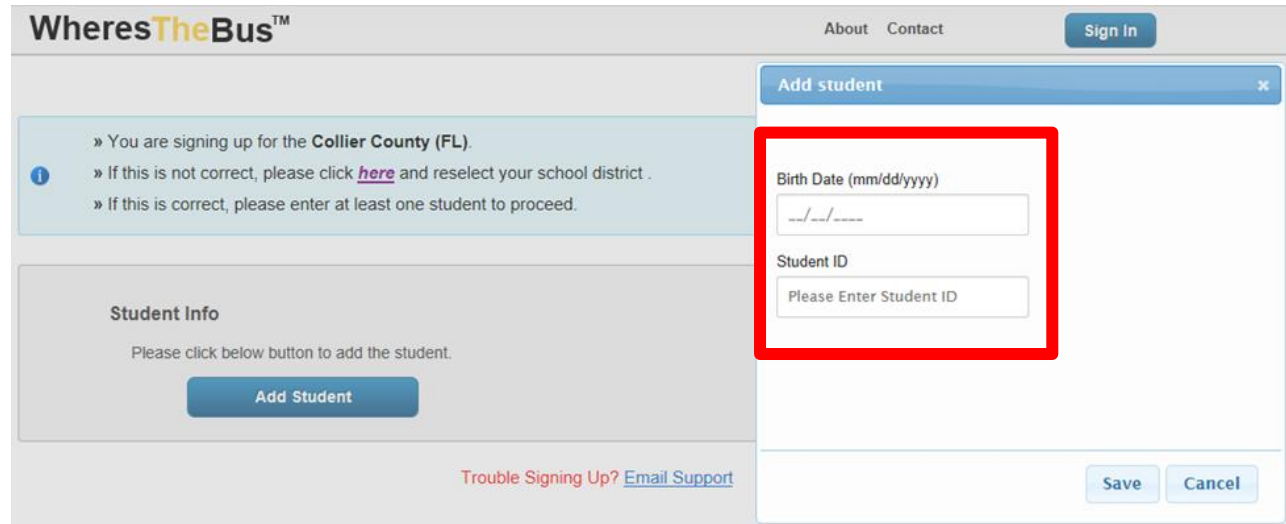

Creating an Account

Parents sign up at www.WheresTheBus.com:

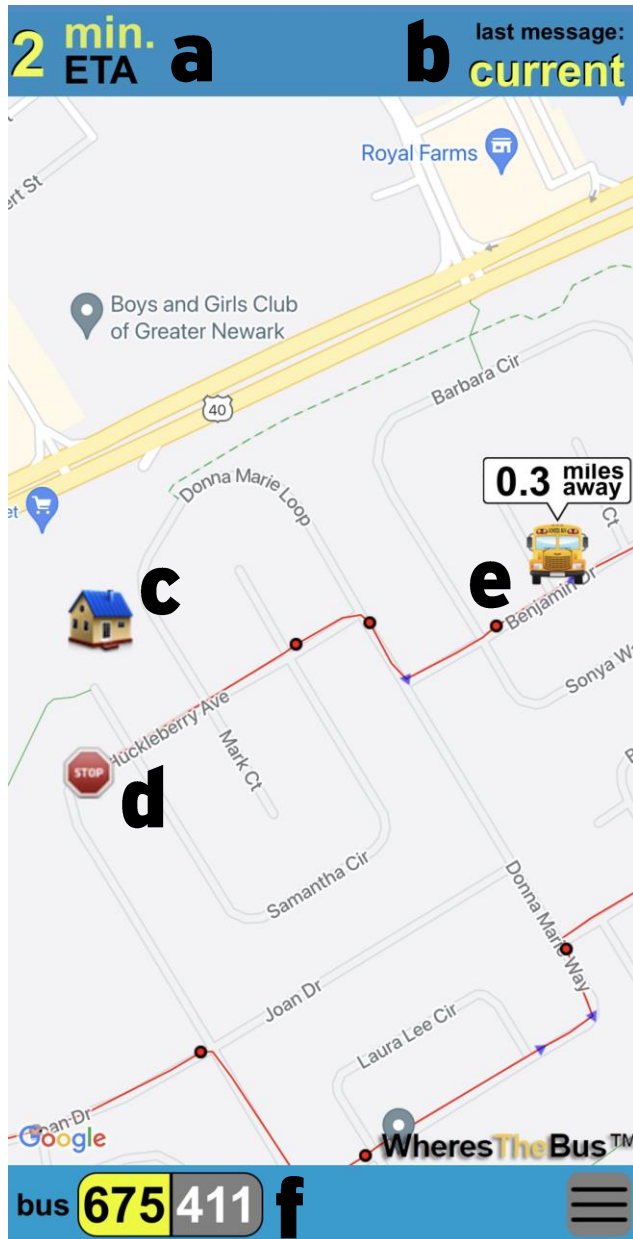

Parents are allowed to create an account only if they can **validate their student information.**

Parents are prompted to enter their student's **birth date** and **student ID #**. If the information entered does not match the student data on file, the parent will not be able to create an account.

Using the App

a. Arrival Status: Estimated time of arrival (ETA) is displayed when bus arrival time can be predicted. When a prediction is unavailable, use the bus location and distance from your stop.

b. Last Message: "current" is displayed when bus data has been received in the last minute. If updates are not received, the bus is likely stopped at a school or layover or inactive (no messages in the last 15 minutes).

c. Your House: represented by home icon.

d. Your Bus Stop: represented by stop sign icon.

e. Bus Location & Distance: represented by bus icon and distance.

f. Bus #: Click on the bus # to switch between buses (if multiple). If bus 36 were subbing for bus 41, it would be displayed as 36(41).
